

KS2 TAKE YOUR PICK – MONDAY 6TH JULY – FRIDAY 17TH JULY

Dear Year 3, 4 & 5,

For your last two weeks of home learning before the summer holiday begins, we would like you to pick at least one of these activities to complete each day. We have included a variety of different subject areas and aimed to make them fun and interesting for the end of term. As usual, we would love to see what you have been up to so please share your learning with your teacher via email.

Good luck!

Mrs Wiltshire, Miss Donnelly, Mrs Gardener & Mrs Maclachlan

Choose a world river to research, e.g. Nile, Mississippi, Amazon. Prepare 10 clues (hardest clue first down to very easy) to present to an adult/friend. Can they work out your secret river?	Create your own God's eye weaving. You will need different coloured wool, lolly sticks or twigs. For instructions, go to: https://www.youtube.com/watch?v=X53ZXcHoR_c 	Think of all the things you are thankful for. Write them on leaf shapes to make a Gratitude tree. 	Create some beautiful 'Zentangle' patterns. https://www.weareteachers.com/zentangle-patterns-classroom/	Make your own Guinness World of Records Book! Find out which animals are the fastest, slowest, tallest, smallest, heaviest, lightest, strongest in the world. Compile your facts into a book and add your own illustrations!
Open a packet of different coloured sweets. What fraction of each colour are in the packet? Can you express the fractions in different ways? You could also use 2Graph (Purple Mash) to show the different colours.	Write a letter or postcard to a friend. Tell them about what you have been doing, and ask questions – hopefully they will write back to you! You might even want to write a letter to someone you know is lonely (an elderly neighbour, a care home) or you might want to thank someone (NHS staff, shop worker, postie). Remember, do not give your address to people you don't know.	Write an acrostic poem for 'SUMMER'. Decorate it with lots of colourful pictures.	Research a type of extreme weather. You could use the link below if you wanted to research tornadoes. https://www.natgeokids.com/uk/discover/geography/physical-geography/tornado-facts/	Invent a fantastical creature (it could be a mixture of a few different real creatures). Sketch your creature, name it and use interesting vocabulary to describe both the way it looks, and the way it acts. You could write a story with your creature as a character – perhaps it can talk or it may have special powers!
Create your own vlog (a video blog designed to share experiences, thoughts, and ideas) about yourself or a topic of interest! Useful link: https://www.bbc.com/ownit/take-control/vlogging-tips?collection=vlogging	Follow this link to take you to a picture of a miniature castle: https://www.pobble365.com/the-miniature-castle/ Scroll down and complete at least one of the tasks about the miniature castle.	Design and create your own board game. You could base it on a game you already know, or you could make it up from scratch. It could have a theme (Minecraft, unicorns, school, space). Remember to write instructions of how to play! https://www.purplemash.com/app/link/2blog#/app/blog/5eff17c1a0e54e632805fc54/	Eyes. Wherever you went in Watchwood Forest, there were eyes..... Follow the link to find out more! https://www.pobble365.com/watchwood-forest Complete at least one of the tasks.	Create a 'picture frame' out of sticks and 'draw' a picture inside the picture frame. You can use leaves, pebbles, flowers, twigs 
Plan and prepare a meal for your family. Write a menu of the meal (it might have 1, 2 or even 3 course). Help write a shopping list for the ingredients. With your parents' permission (and maybe a little help), prepare and cook the meal. It would be great to have a review of your meal too!	Art in Maths! Create the illusion of a 3D pattern by drawing straight lines! Follow the link to take you to the instructions https://www.youtube.com/watch?v=PASWuIncXsA	Create your own Pop Art! Follow the link to be inspired by the Pop Art of Andy Warhol and create your own! https://www.tate.org.uk/kids/make/paint-draw/make-pop-art-warhol	<u>Fairtrade</u> Use this website to learn about fair and unfair trade around the world. There is a Fairtrade cotton presentation and a quiz on the website too. https://cafod.org.uk/Education/Primary-teaching-resources/Fairtrade	Create tangrams using this interactive game. https://mathigon.org/tangram
